### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kendrew H. Colton on March 4, 2008.

The application has been amended as follows:

In the claims: Please cancel claim 8.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to perform the process that is now claimed. The prior art does merely teach a method of fabricating an abrupt hetero interface by organ metallic vapor phase growth. However, the prior art does not teach an InP single crystal having a plane direction accuracy of  $\pm 0.05^\circ$  in the (100) orientation or does the reference teach a compound semiconductor epitaxial substrate, having fewer defects obtained, as stated in the instant invention. There is no motivation in the art to change the prior art's teaching of to arrive at the instantly claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
